## STEP 03

### 3. AFTER YOU SIGN UP, THIS PLATFORM OPENS UP AND GIVES YOU LIST OF COURSES. YOU NEED TO CLICK ON "GET THIS COURSE" TO GO THE COURSE.

Please note, some courses are paid courses for which the payment gateway opens. As of now only 2 courses on nutrition are paid courses. All others are free.

The screenshot shows the RSSDI website's 'Courses Catalog' page. The interface includes a navigation menu on the left with options like 'My Courses', 'Courses Catalog', 'Progress', 'Discussion Forum', 'My Calendar', 'Job', and 'Surveys'. The main content area displays a grid of course cards. Each card features a title, a representative image, a brief description, and a 'Get this course' button. The courses listed are:

- CERTIFICATION IN DIABETES SPECIFIC NUTRITION EDUCATION (BASIC)**: Evidence based research supported MNT can improve glycemic control considerably with or without pharmacotherapy. Basic Module will help to increase understanding of principles of nutrition therapy for glycemic management.
- CERTIFICATION IN DIABETES SPECIFIC NUTRITION EDUCATION (ADVANCED)**: Advance course helps in understanding of personalised nutrition support in disease specific real world situations unique to patients with diabetes and its complications. Learning will be facilitated with case based discussions.
- DIABETES AND TECHNOLOGY WORKSHOP 1**: All diabetologists and physicians with a keen interest in diabetes and technology are welcome to this self-paced online learning with national and international key-note speakers who take us through the latest evidence and advancements in the field of technology and diabetes.
- DIABETES AND TECHNOLOGY WORKSHOP 2**: To further your acquaintance to devices and digital technology in diabetes care our RSSDI-DTN (diabetes technology network) task force bring you this self-paced online course to accelerate the progress and knowledge of our healthcare professionals in the application of biotechnology in diabetes.
- WORKSHOP -1 ON TYPE 1 DIABETES**: It is essential to provide standard of care to people with Type1 Diabetes. This course welcomes all healthcare professionals to the updated guidelines, evidence-based treatments and self-management solutions for their patients.
- DIABETIC FOOT**: Healthcare professionals have a significant role in the prevention and management of diabetic foot disorders. This online course in Diabetic foot aims to build the capacity of healthcare professionals in diabetic foot care to bring about a significant change in patient care and quality of life to avoid loss of limb or disfigurement of feet. Timely feet examination of patients will help to identify feet at risk early.

Buttons for 'More...' and 'Get this course' are present on each card. Some cards also show 'Free course' or 'You have this course' labels. The footer of the page reads 'Powered by edu plus now'.
